

## **“It’s so nice to have our garage back.”**

It was a teenager’s dream . . . back in 1982 – working on cars from his parent’s garage – and getting paid for the doing the work. The only problem was Terry was good at what he did. In fact, Terry’s customers were so impressed with his work, his little business soon overwhelmed his parents and their garage.

Now Terry Mostul is the owner of Artistic Auto Body Tigard and Wilsonville and a member of the Fix Auto Network of certified collision repair locations. Even with 50 employees, Terry is still a hands-on manager ensuring his customers the same high quality workmanship and service he always provided. He just has more space now. His customers and his parents are very happy about it.
